

SPM now provides certified Covid Compliance Officer services on set, in addition to PCR Covid-19 testing services.

Our Covid Compliance Team works closely with production to ensure no disruption while keeping safety on set a priority. Covid-19 testing is coordinated and managed in a clear, comprehensive way, adapted to your schedule and budget. Keeping track of the ever changing health guidelines, SPM manages all safety requirements with discretion and efficiency.

Our Personal Protective Equipment gear also remains available and can be purchased separately.
